

Features

-)] **2 Pin MS connector in straight or 90° versions to fit most all Inductive or other 2 Pin pickups.**
-)] **High quality shielded cable - foil wrapped and with a stainless steel ground drain .**
-)] **Available in various lengths to meet your needs**

The 2 pin pickup cables are manufactured by Kraft Power to very stringent specifications and with high quality components. The shielded cable is foil wrapped with a stainless steel drain to prevent “noise” . Every cable assembly is tested to insure it will perform in the demanding gas engine industry. In many applications the Kraft Power cable can replace OEM pickup cables. Available with either a straight or 90° MS connector, and in various lengths. Custom lengths are available.
